Forecast for Friday 24 Jun 2022

Weather: Mostly cloudy at first with murky conditions developing at higher levels giving a little drizzle in places. Slowly brightening up this morning, while scattered mainly light showers develop. Some sunny spells early this afternoon before skies cloud over with a band of rain arriving by early evening. Clear periods and isolated showers following to end the day.

Chance of cloud-free hill tops above 600m: 40% at first, rising to 90% by noon. Falling to 40% for a few hours during the evening as the band of rain passes through.

Low cloud and visibility: Extensive cloud above 400-500m at first, mostly lifting by noon. Summits generally clear this afternoon before periods of cloud above 500-600m develop in association with the band of rain early this evening. Very poor visibility in cloud this morning, improving to very good by this afternoon, and again late evening. In-between falling to poor during rain this evening.

Forecast for Saturday 25 Jun 2022

Weather: A day of sunny spells and showers. The showers will be most widespread through the morning and early afternoon and some will be heavy with a risk of thunder. Becoming drier to end the day with increasingly lengthy periods of sunshine. Quite a windy day, especially over the highest summits.

Maximum wind: South-westerly 20-25 mph with occasional gusts of 40-45 mph.

Chance of cloud-free hill tops 600m: 90%

Low cloud and visibility: Excellent visibility for most of the time with distant hills clear to see. However, visibility will briefly deteriorate in and around showers and patches of cloud may develop over the highest summits as showers pass over.

Temperature: **Valleys:** Plus 9 Celsius rising to plus 19 Celsius.
At 600m: Plus 8 Celsius rising to plus 12 Celsius.
Freezing level: Well above the summits.
